Answers for Stores and Brands

I own a store, how does Svply work for me?

Svply is a growing community of taste makers. Our members use Svply to keep track of the things they want to buy later, or to discover products they didn't already know about from the people and stores they find interesting.

Our members are currently pulling products from 75,000 of their favorite stores, which gives us the ability to build a unique shopping experience filled with the best products online.

Some store examples:

Should I get more involved?

Yes! We display the 1.1 million products in our exclusive database over 5 million times a month. Once your product has been added by one of our members, we generate more interest for it by pushing it to the rest of our visitors.

So how can I help?

What you can do right now is add a single line of code to the product pages on your website to help encourage our members to show off your products on Svply. Select a button style below that you'd like to see on your site, and we'll give you more instructions:

How do I know if my products are on here already?

Store pages and products are added organically by our community. The moment one of our members adds your product, we dynamically create a store page so that visitors can easily see more of the products our community loves.

Enter your store's URL in the space below and we'll check to see what we have:

I'd like to talk to you more about Svply.

Feel free to [email us](#) with any questions or ideas.

Svply helps you find the products you love, from the people and stores you find interesting.
